

The drawing is a longitudinal profile of a sewerage network. It shows the vertical alignment of the pipes and manholes. Key features include:

- Manholes:** Labeled from K104 to K103.1, with elevations and distances between them.
- Pipes:** Specified as PVC-U, 160 mm diameter, with various grades (SDR 31, SNI2) and lengths.
- Profile Line:** A dashed line representing the ground surface, with elevations at various points.
- Notes:** Descriptions of the pipes and manholes, including material, diameter, and length.
- Scale:** 1:100.
- Legend:** Symbols for different types of manholes and pipes.
